

REGULATION CHANGES FOR CONSULTATION

Committee:	Race Committee
Date of Meeting:	18 June 2025
Closing date for consultation:	8 August 2025 5 September 2025
Email for comments:	raceconsultation@motorsportuk.org

Proposed Regulation

Chapter 12 – Race

Appendix 4 - Organisers' Regulations and Restrictions

Radios and the transmission of electronic signals

- 4.17 ~~Mobile phone or tablet devices are prohibited from being carried in the competing **Vehicle** whilst on the **Circuit**.~~ All audio communication making use of cellular technology is prohibited from use within the **Competition Vehicle**.
- 4.18 Any other devices within the **Vehicle** such as devices displaying timing data, must be securely mounted using a mechanical means of attachment sufficiently robust to withstand anticipated stresses and vibration and must be approved by the **Chief Scrutineer**. Any such device must be located above the centre line of the steering wheel, between the **Driver's** side 'A' pillar and the centre line of the **Vehicle** and must not interrupt the **Driver's** visibility.

Date of Implementation: 1st January 2026

Reason: Mobile phones and tablets have been prohibited from being carried in the vehicle for some time however this continues to raise requests for clarification. Therefore the proposed amended wording to 4.17 should provide the clarity required.

In addition with the ever increasing use of technology in the vehicles the newly proposed 4.18 is to provide greater clarity to assist both competitors and scrutineers with the acceptable fitment.
